Quattroporte

GENUINE ACCESSORIES

THE JOURNEY STARTS WITH CARE

It is the small touches and simple acts of care that keep the great charm and spirit of an exclusive car alive over time.

Simple touches that maintain the emotion of the first trip.

Indoor car cover

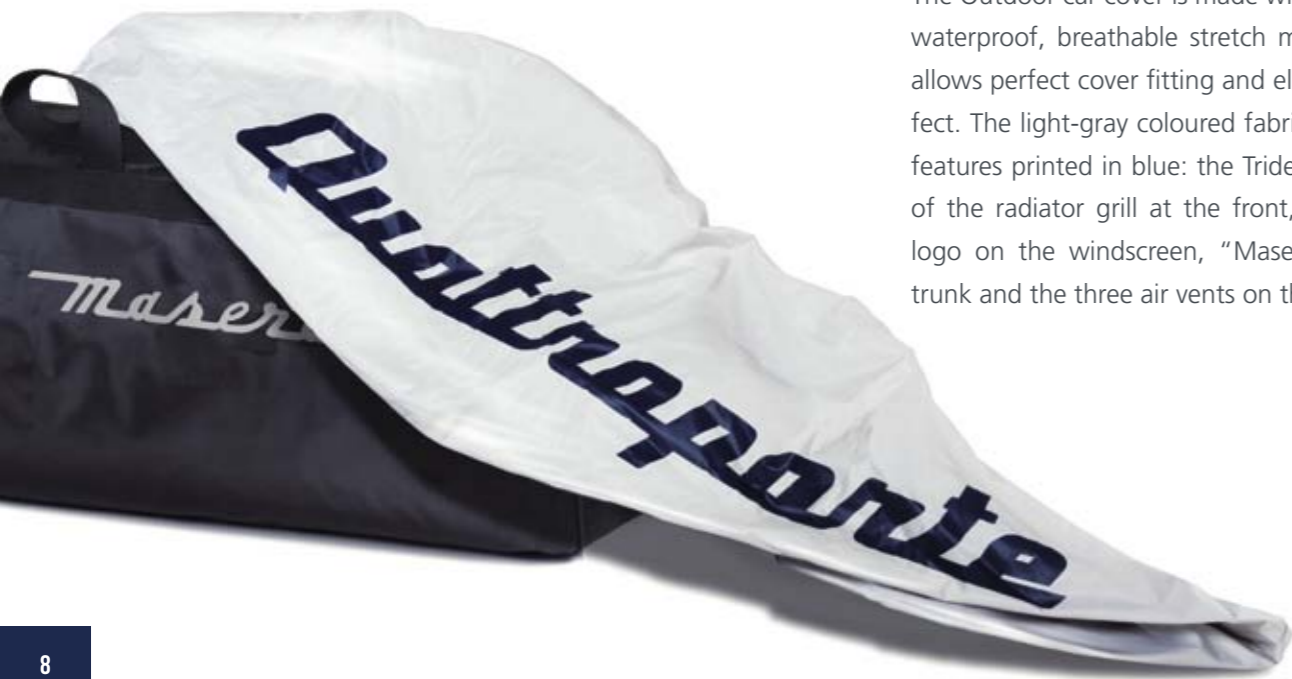

Made from a quality anti-laddering blue fabric with smart light-grey piping, the Indoor Car Cover fits the vehicle perfectly and protects it from dust while parked in a garage or indoors.

The cover is enhanced with features printed in gray: the outline of the radiator grill and the Trident logo at the front, "Quattroporte" written on the windscreen, the three air vents on the sides and "Maserati" written on the trunk.

Outdoor car cover

The Outdoor car cover is made with high-performance, waterproof, breathable stretch material. Stretchability allows perfect cover fitting and eliminates the wind effect. The light-gray coloured fabric is embellished with features printed in blue: the Trident logo in the center of the radiator grill at the front, the "Quattroporte" logo on the windscreen, "Maserati" written on the trunk and the three air vents on the sides.

Car care kit

The Car Care Kit consists of nine products, exclusively designed and developed for Maserati with the aim of preserving the top-quality materials of your vehicle and at the same time respect the environment. These products - tested and approved by Maserati's laboratories - are part of the "Kyoto Friendly" line, currently the only product line that can be used in any place, as it is thoroughly environmental friendly. The products come in a smart and practical transparent case with leather trim. Each product can also be purchased separately.

The kit consists of the following products:

- Shampoo auto
- Insect Remover
- Tire Black
- Wheel Rim Treatment
- Window Cleaner
- Plastic Cleaner
- Leather Cleaner & Reviver
- Delicate Fabric Cleaner

Side protective films

Giving maximum bodywork protection in those areas most susceptible to scrapes and stone damage, the Side Protection Kit consists of a transparent urethane film that doesn't change the color of the bodywork and doesn't turn yellow over time. The film is moulded and covers the side panels of the vehicle with absolute precision. Simple and quick to apply, it comes with a removable adhesive system. In fact, the film is applied using a water-based solution, which when removed, doesn't leave any adhesive residue on the surfaces it was applied to.

Valve covers

The Valve covers add an extra touch of elegance to the New Quattroporte. The covers are made of a lightweight, rust-proof material, resistant to all weather conditions. The Trident logo embossed on the cap personalises the valve cover.

A SAFE TRIP IS A PEACEFUL TRIP

Having everything close at hand you may need for any eventuality lets you embark on each journey with the peace of mind of someone who feels safe and who can take care of himself and those travelling alongside him. Peace of mind which generates calmness and makes the journey more enjoyable.

Emergency Kit

The Emergency Kit is the first point of help if your car breaks down or for any unexpected situations that may arise during your trip. The kit comes in a smart case that fits perfectly into the recess on the left-hand side of the luggage compartment. It consists of the following parts:

- Emergency triangle
- Reflective vest
- Lightsticks
- Dynamo Torch
- First-aid kit
- Gloves
- Ice scraper

The contents of the kit may vary according to the laws in individual countries.

Emergency Triangle

The Emergency Triangle, which is mandatory in some countries, comes in a practical and smart Maserati-branded holder.

First-aid kit

The first-aid kit is a practical pack containing everything you need for practically every eventuality.

Before

After

Windscreen water repellent treatment

Developed to improve driving visibility during the winter months, the Windscreen water repellent treatment is the ideal product for those wanting to travel securely and with piece of mind.

Once applied, this Maserati-Würth product leaves the windscreen perfectly smooth, allowing water to slide off and clean the glass of troublesome residue. In addition, this special treatment will help removing dirt and ice from the windscreen more easily and quickly.

Snow chains

Specially designed for the New Quattroporte, the spider-type Snow Chains are easy to put on and quick to take off without risk of damage to the wheel rims. Excellent grip is provided on virtually every road condition.

Winter Tires

Maserati Winter tires are designed to provide the highest driving performances in winter, thanks to their excellent grip and levels of safety. tires tread, compound and structure have been specifically developed to be used at low temperatures, on snowy or wet road surfaces.

Disclaimer: Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles can cause serious damage to wheels, tires, and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

THE REAL PLEASURE OF TRAVEL

It is only through care and attention to every single detail that a simple journey is transformed into a sublime and rewarding experience. Even the smallest accessory designed for the New Quattroporte responds to a real need, and will make any trip more comfortable, simple and enjoyable.

Battery Charger & Conditioner

The Battery Charger and Conditioner is the perfect tool for keeping your vehicle in optimum condition at all times. This device not only charges the car battery, but also protects it by increasing its performance and lifetime. It is easy-to-use, without the need for programming, and simply requires connection of the car battery to a stan-

dard power socket. The charge level is kept constant between 95 and 100%, and the battery is also charged when necessary. The Battery Charger and Conditioner can stay connected for several months without any risk of damage to the vehicle.

Jumper Cables

Jumper Cables are indispensable to experience every journey safely and with peace of mind.

The Jumper Cables created for the New Quattroporte come in a practical case embossed with the Maserati logo, which comfortably fits in the spare wheel compartment.

All Weather Floor Mats

Tailor-made for the New Quattroporte, the new All weather Floor Mats are the ideal solution to protect the vehicle interiors from water, snow, mud and sand. Made of anti-slip material and with clip fastening, the floor mats are easy to fit to the interior trim panels and can be perfectly anchored to the vehicle floor.

Their surface is totally water repellent and waterproof, and ensures optimal grip of the driver's feet, which translates into fully safe driving.

The set consists of two front floor mats and two rear floor mats, all made in black rubber.

Disclaimer: Never place floor mats on top of each other while driving and make sure they are securely fastened before driving.

Luggage net

Designed and developed for the New Quattroporte luggage compartment, the Luggage Net securely fastens objects in the luggage compartment, stopping movement during the journey. The net is double-layered to hold in small and thin objects. The net is fastened by four corner-hooks, which attach to the rings already installed on the floor of the luggage compartment.

Luggage compartment mat

Specially designed for the New Quattroporte, the Luggage compartment mat was developed to practically and stylishly protect the floor of the luggage compartment.

The mat completely covers the luggage compartment floor, fitting perfectly over the surface. Made of thermoplastic foam, the mat is waterproof and washable. The surface of the mat is personalised with the outline of the front radiator grill, and the "Maserati" and Trident logos.

Luggage set

Elegance and quality sets the New Quattroporte Luggage Set apart, with authentic Italian design and leather. Created through collaboration between Maserati and Poltrona Frau each piece of luggage is the perfect combination of high quality materials and attention to detail. The luggage was designed to make the best use of the

luggage compartment capacity so that each piece maximizes all available space.

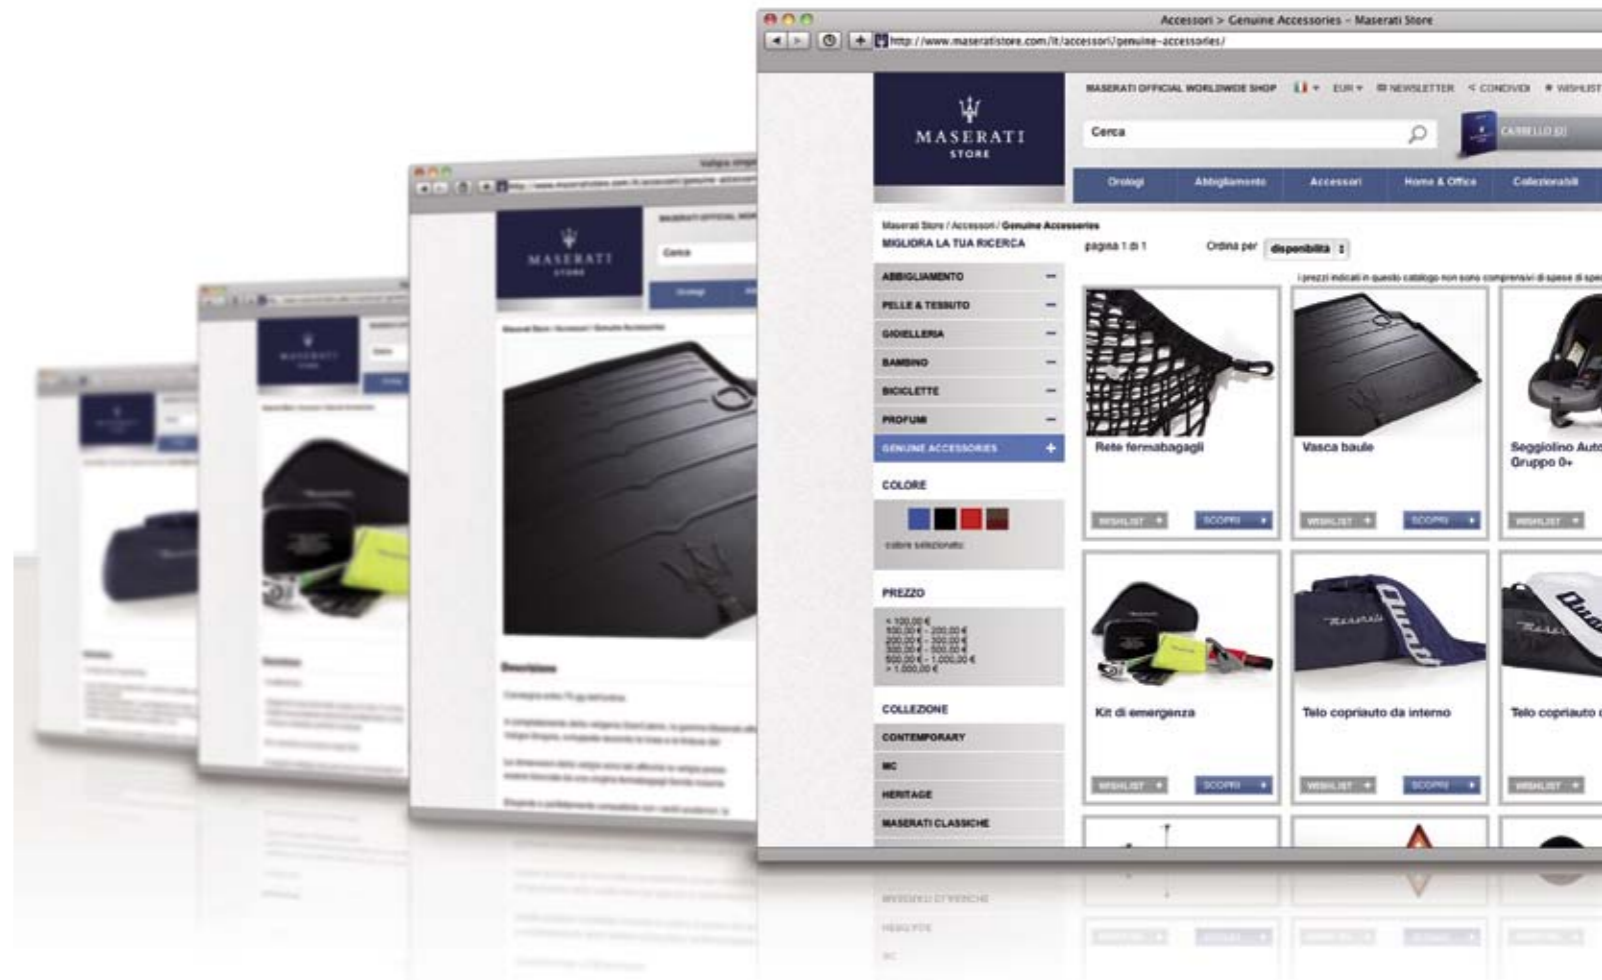

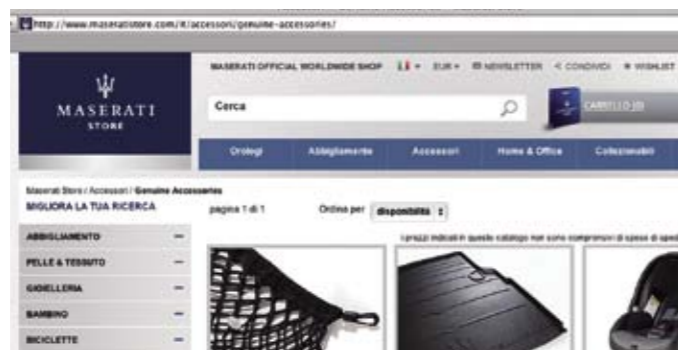

The set is made entirely of leather with contrasting finishes that enhance the front of each piece. The piping evokes the shape of the centre tunnel, while the Trident logo embellishes the soft, refined leather used to make the luggage. The "Maserati" logo embossed on the handle adds to the sense of elegance and value.

The set comprises six standard pieces: two trolley cases (one small and one large), two beauty cases (one small and one large), one suitcase and one holdall. Two other pieces can be added to the set: the Shoe-carrier (holds two pairs of shoes) and Garment bag. Each piece can also be ordered separately.

www.maseratistore.com

Genuine Maserati accessories can be purchased through the official Maserati network (dealers and service centers) and through the online store www.maseratistore.com. Only a selected number of items from the range are available online. Please see your local authorized Maserati dealer to purchase the entire range of Maserati Genuine Accessories.
